

# Twilio Account

Date	12 November 2022
Team ID	PNT2022TMID23834
Project Name	Project-Early detection of forest fire using deep learning

The screenshot shows the Twilio Console interface. At the top, there's a navigation bar with the Twilio logo, a search bar, and links for Account, Billing, and the user profile (Ganesam). Below the navigation bar, the main content area displays a welcome message: "Ahoy Ganesam, welcome to Twilio!" followed by the instruction "Learn to build your first SMS app by following these steps." A progress bar with five steps is shown: 1. Get a number, 2. Send your first SMS, 3. See an app demo, 4. Follow the tutorial, and 5. Scale your application. The first step, "Get a number", is highlighted. Below this, the text explains that a virtual phone number is needed to send or receive SMS. It also mentions that a free USA or Canadian phone number can be obtained while on trial. A green checkmark icon and the text "You've got a phone number!" are visible at the bottom of the step.

Ahoy Ganesam, welcome to Twilio!  
Learn to build your first SMS app by following these steps.

1 2 3 4 5  
Get a number Send your first SMS See an app demo Follow the tutorial Scale your application

**Step 1. Get a Twilio phone number**

To send or receive an SMS with Twilio, you will need a virtual phone number from Twilio. A virtual phone number is a standard telephone number that is not locked down to a specific phone. It can route a voice call or text message to any phone or application workflow. In addition, you will need Twilio account SID and Auth token to connect Twilio with your application.

**While your account is in trial, you can get one free USA or Canadian phone number.** To get local phone numbers outside of the USA or Canada, you may need to upgrade your account and meet [regulatory requirement](#)

✓ You've got a phone number!
